

THE PROMISE OF PREVENTION

Partnership for Prevention (Partnership) is a nonpartisan national membership organization dedicated to the adoption of sound disease prevention and health promotion policies and practices. As a pioneer in the prevention arena, Partnership drives prevention policy by:

- Analyzing cutting-edge scientific research to identify policies and practices critical to improve the health of all Americans.
- Engaging a network of diverse healthcare stakeholders to assess critical issues, determine solutions, and set priorities for public and private sector action.
- Alerting decision-makers in every sector about innovative prevention practices, and advocating for the adoption of evidence-based approaches.
- Serving as a conduit between forward-thinking CEOs and government leaders to propagate effective prevention and wellness policies.

A GROWING CHORUS

Organization membership represents a broad spectrum of healthcare influencers including, titans of industry, world-renowned NGOs, and state governments at the forefront of health policy change. These members are revamping the way Americans look at health care.

MAKING A DIFFERENCE

Partnership's leadership and commitment to disease prevention and health promotion is recognized nationwide. Recent accomplishments include:

- **Clinical Service Priorities** – Ranking of the health impact and cost effectiveness of 25 preventive services recommended by the U.S. Preventive Services Task Force and Advisory Committee on Immunization Practices and determining their utilization rates among Americans.
- **Congressional Prevention Caucus** – Working in cooperation with a bipartisan, bicameral Caucus dedicated to raising the level of knowledge in Congress about disease prevention and health promotion and identifying strategies that can lead to a healthier nation.
- **Leading by Example – a CEO-to-CEO initiative** – Catalyzing the influence of CEOs to promote greater business involvement in health promotion and disease prevention and to help transform the health care system from a treatment focus to a prevention focus.
